HASSLE FREE LOGISTICS

We're more than just a logistics company. We're born problem solvers. Put simply, we're here to deliver hassle-free logistics. No matter the size, weight or distance, we're determined to meet the challenge.

There isn't a problem we can't solve, and no 'standard' answer. To us every single job is unique. We love coming up with new ways to solve your logistical problems and find the fastest, safest, most efficient way of getting your cargo from A to B. Even if we have to go via X, Y and Z. You're depending on us – and we never forget it.

Solid foundations

- **Strategically located offices in key UK ports plus the Middle East and Asia.**
- **Carefully selected, trusted partners across the globe.**
- **Expert logistics advisors, not just order takers.**

The tools to match

- **Our own flat racks, platforms, open tops and mafis.**
- **Our own fleet of lifting and loading equipment.**
- **All the equipment needed for the very best, seamless, door-to-door service.**

ONE

GLOBAL
TEAM

TRUSTED EXPERTISE

Welcome to Allseas Global Logistics, where problem solving is a way of life. Our wealth of in-house expertise has made us the freight forwarder businesses trust to deliver their shipments faster, safer and more efficiently across land, sea and air.

As one of the most respected forwarders in the Freight Community, we pride ourselves on handling the most challenging, time-critical deliveries. From start to finish, we'll work with you to plan ahead, saving you time and money before your shipment even reaches the port.

Think of us as logistics advisors that will be on hand throughout with a global understanding of the logistics world few can match. With headquarters in the UK and offices worldwide, plus a global network of accredited agents, it's easy to see why we're so tried and trusted in the shipping world.

Regulated Agent for
Aviation Security

GLOBAL FREIGHT SOLUTIONS

When it comes to cargo exports, our commercial contracts and buying power with all the major shipping lines, airlines and GST agents means we can negotiate the most competitive rates for your export cargo.

Through our global network partnerships we also offer the very best ground agents for efficiency on cost-effective solutions.

We're equally adept at cargo imports, our global network currently has more than 200 trusted agents, for the most flexible, competitive rates worldwide and maximum neutrality. We also offer cross trade point-to-point, along with ERTS bonded warehouse at all major UK airports for goods in transit.

SEA FREIGHT

Efficient transportation across the seas

With weekly global departures and service contracts with every major carrier, we'll make sure your cargo is moved on time and on budget. So whether it's transit time or price-critical, we're confident of providing the best containerised solution for your freight.

Thanks to our NVOCC contracts with major shipping lines, we offer weekly Full Container Load (FCL) services to most destinations around the world, including General Purpose, High Cube, Flat Rack, Open Top, Platform and Refrigerated containers.

Should you need to send less than container load shipments (LCL), we receive continuous shipments at our Aberdeen, Birmingham, London (East and West), Leeds and Manchester depots. We also offer regular, dedicated LCL services to all global destinations and freight forwarding services to some of the toughest to reach parts of the world. So if you're looking to cut down costs and delivery times, look no further.

AIR FREIGHT

The ultimate in blue-sky thinking

We've been developing our air freight experience for many years now, building great relationships with international air carriers around the world offering a full, market-leading logistics package. All delivered by industry experts and supported by transparent, leading-edge information management.

World-class service, worldwide

- Wide range of time-defined and specialist services.
- All cargo shipment types, from express courier and hand deliveries to heavy lift and air charter.
- Choice of standard connections and fixed schedules.
- Air freight charters, arranged to fit your exact needs.
- Renowned trade buying rates for competitive pricing.
- Door-to-door services to any destination in the world.

ROAD FREIGHT

Miles better road haulage

Our road freight team have all the industry experience required to design a road freight plan that's the perfect fit, with daily services throughout Europe and into Eastern Europe, CIS and the Baltic states.

Road haulage is an essential link in our import and export sea freight business. We rely on it to collect from source at the initial stage of the journey or deliver to the end user for that final stage.

This experience gives us an advantage when it comes to working closely with operators and our partners to establish the fastest and most competitive routes for your cargo.

- **Dedicated wagons, 7.5 ton to Euroliner trailers, containers, abnormal loads.**
- **Groupage and full load.**
- **GHazardous ADR.**

RAIL FREIGHT

Connecting with new rail links

Recently, it's been all change for rail freight. Faster than sea and cheaper than air, rail freight is once again a viable option for bulk freight transport across Europe and further east.

Adding new train lines across the ancient Silk Road has opened up fast, economical rail freight links between Europe and into China.

While massive infrastructure improvements in Europe and the UK are helping the train take the strain off our roads and create savings that are also good news for the environment.

We've been quick to get on board the new rail options available and fully understand how to establish services to help our clients benefit from its many advantages.

- **China / Europe Eastbound and Westbound containerised.**
- **Intra-Europe service linking all European countries. Containerised and curtain sided units.**
- **UK rail services between regional container depots and all major UK ports.**

PROJECT LOGISTICS

Our logistical expertise covers every area of project forwarding across land, sea and air. Our award-winning project management team have the necessary technical skills and experience to carry out your end-to-end project challenges.

Experts in moving, loading and shipping worldwide, our vast experience as a global project forwarder means we can offer a bespoke logistics solution, no matter the consignment or destination.

SERIOUSLY BIG SOLUTIONS

Our abnormal loads service covers all kinds of Out-of-Gauge shipments. So much so, we've become a leading specialist in big, complex cargo shipping.

We're proud to meet our clients' needs, including organising the transportation of Breakbulk and un-containerised cargo, often on-board deep sea container ships.

Many of our people are experienced in working for shipping lines and port operators, giving us a natural advantage over many of our competitors. Put simply, we know what can be done and how best to do it. That's why we work closely with the world's most established shipping lines and ports to plan and organise the loading of Out-of-Gauge and Breakbulk cargo.

LET US DO THE HEAVY LIFTING

We love a challenge. So however big, complex or awkward your project cargo, we'll find a way to move it quickly and safely.

From massive generators, heavyweight machinery, to processing equipment and entire factories – we transport it across the globe. Our in-depth market knowledge and relationships across the shipping industry are second to none. Meaning we can identify and charter the vessel or aircraft space to fit your needs and arrange safe loading, securing and unloading of the cargo.

Unique challenges demand unique solutions. So our experienced, innovative teams offer unrivalled expertise. Not only moving the most difficult, challenging and time-critical cargo, but providing perfectly matched shipping solutions.

VESSEL & AIRCRAFT CHARTERING

We operate high volume charter services to and from Europe, Africa and the Middle East.

Vessels and aircraft can be chartered per trip, or on a time chartered basis, from short sea to deep sea movements.

Working closely with carefully selected partners in strategic markets, we deliver safe, swift solutions that respect the environment. With Allseas experts on site to supervise and control the process from start to finish, we're the only project forwarder you need.

SUPPLY CHAIN MANAGEMENT

Small on hassle. **Big on solutions.**

DYNAMIC RESOURCING

At Allseas Global Supply Chain we understand that our clients are unique and we pride ourselves on listening to their requirements, so that we can provide an individually-tailored solution meeting our client's needs.

We can offer services across the entire supply chain from initial product manufacturing through to end delivery. We offer a fully integrated, end-to-end service designed to create value across a broad range of industry sectors and all modes of transport.

Design

We provide individual-tailored programmes for our clients, with strategic network planning tested in a safe environment prior to implementation. We provide a competitive advantage by using our scale and access to a global network of partners.

Manage and simplify

We enable visibility to our clients through one cockpit, managing the patchwork of data and documents, customs, duty and tax, reporting, risk analysis and avoidance.

Operate

We deliver operational excellence that keeps clients in the driving seat, sourcing best-in-class 3PL operations, including order management, transport planning, booking and invoice verification.

Continuously improve

Operating in a joint-value environment, we work to clearly-defined efficiency and service improvement targets, striving for shared innovation whilst providing access to Allseas' logistics expertise.

DYNAMIC RESOURCING

Our Dynamic Resourcing service is exclusive to Allseas Global Supply Chain clients. Dynamic resourcing is the smart word for a “Plug and Play” resource solution. It allows for intelligent resource to be instantly embedded into your organisation.

Our partnership carries no bias to any particular provider, our specialists assimilate into clients’ businesses, vigorously protecting their interests, focusing only on business growth at the most competitive price.

Key benefits

Minimises cost

Our first approach is always to minimise financial exposure for a client, with FTE generally one of the highest areas of cost in any business.

Supports project delivery

When delivering a change management programme, Dynamic Resourcing helps to keep up the momentum of project delivery within timeline, quickly bringing skilled individuals to an area requiring improvement.

Avoids employment costs

Dynamic Resourcing delivers a fast and intelligent solution without the client needing to employ FTE with the associated costs of healthcare programmes, screening, agency fees and such.

Flexible and scalable

The Dynamic Resourcing team are only in place as long as required and if the client wishes to keep the individuals post-project, they are welcome to employ them at a cost far below market rate.
